Quality Management System

Manual version 8, SEO Consultant Edition

## **Welcome to SEO ProRank**

This text is aiming at SEO Consultants, SEO Experts. If you are not an SEO Consultant, then you shall consult your current SEO consultant for advice.

This manual require some basic knowledge about SEO.

## **Download**

You may download the software, open the folder and click the icon. There is no installation, only an executable file.

The database is stored in the same folder as the software. Do not remove the database!

You may enter any URL as you desire and also the keywords.

When you're done, press "Scan" to see the result on Google.

You need not to register to use the software.

## **SEO ProRank Score**

The score are easy to count. On the first page you will get one (1) point for each hit.

However, to get any score you need to verify your domain. This is to prevent scores from domain, sites and keywords that's not yours. In return, you may include to monitor any site and any keyword as you wish.

## **Upload score to the public page**

When you're done with the scores, you may update the result to the public web page. To do this, you must register and pay a small fee with the site.

Please look in the Getting Started documentation provided on the site [seoprорank.com](http://seoprорank.com) for information how to register with SEO ProRank.

Simply enter your e-mail and the selected password inside the SEO ProRank software. When finish, you may update the score to the public page along with information about you and your business.

Your data can be updated one time every 24 hours.

### **Subscription**

When purchasing the subscription you will make the result ready to view by others. Your name and score will appear on the page. Your presentation will contain clickable links.

Subscription is charged for one year at the time. Prices may change.

### **Verify your domain**

To ensure that you get the ranking from your own domains and not just any domain, there is a verify feature. This feature allow you to ensure that the scores you show are from your work.

### **Back-up to the cloud**

As an option, you may back-up your URL's and keywords to the cloud. You may choose to upload to the cloud, download from the cloud or delete your backup from the cloud.

### **Support**

In every service there is support. Or, to use straight English, there should be support!

We intend to make it better than standard for the business. Any person interested in SEO shall get the best support ever and why not let the experts do it?

We will eventually have any support in any language. For this, we create the Team ProRank. Team ProRank are experienced SEO Experts with the ability to also create and keep new contacts.

### **Security and privacy**

Your privacy is our business! Our servers and all data is stored in Sweden. We do not give any private information to any secret service. The data is not used for any other purpose than to benefit you and your business.

We do not sell advertisement. We do not sell data about you or any other user. For us, you are very important.

### **Guarantee**

We can not guarantee anything. You use this software on your own risk. The long term goal with this project is to eventually higher the quality on the web, leaving the fools and scammers behind.

Enjoy!

Welcome!
