Quality Management System

Getting started, SEO ProRank version 8.

Welcome to SEO ProRank

SEO ProRank is a two component service. There is the software that you install in your computer. There is the public website where you publish your result, to share with others. Others in this case means primarily current and future customers.

Maybe you don't have customers? If so, you can still use the software to keep track of your own and competitors keywords.

Installing the software

There is no installer included in this software. Simply, download the latest version and open the compressed file. Choose "Open with..." in Windows. This view is from Windows, but Mac OS and Linux looks similar.

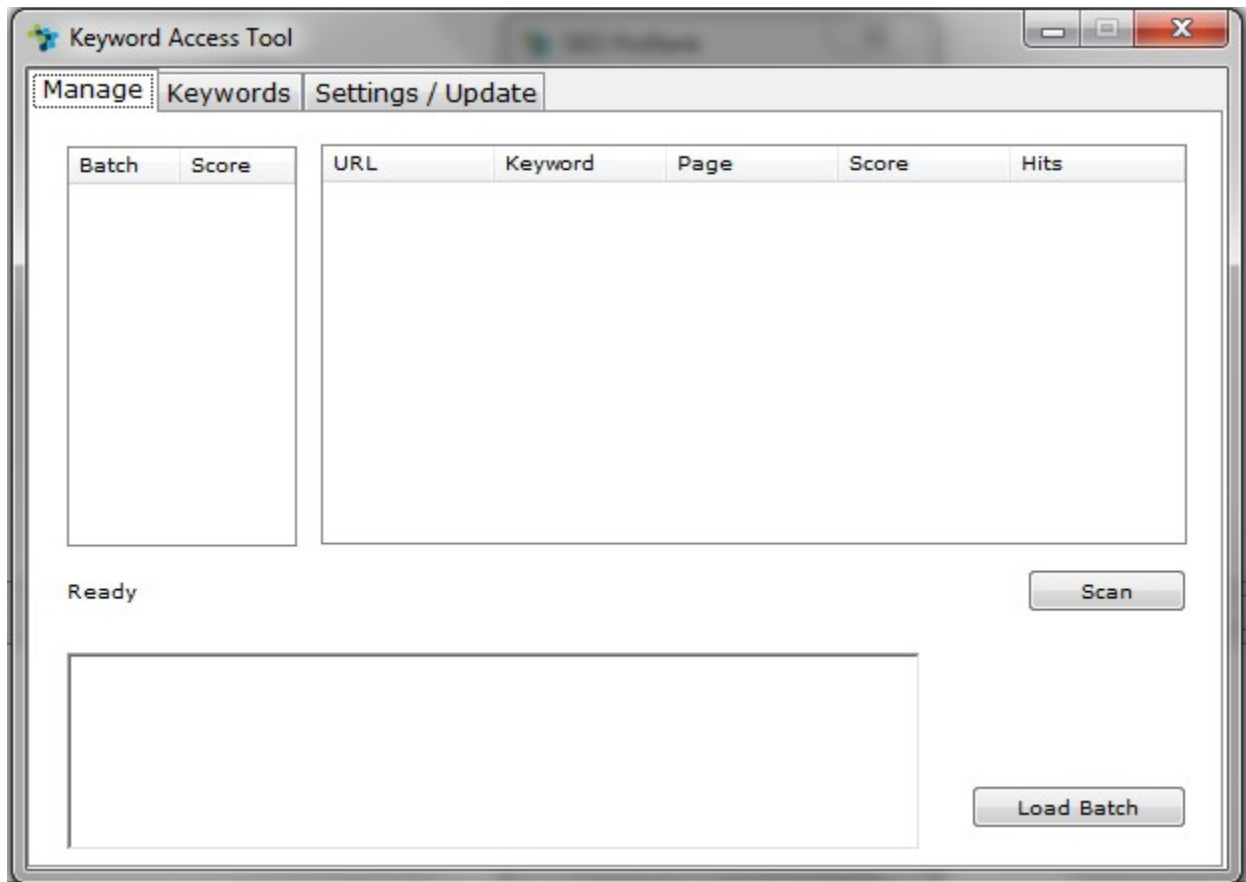

Click to start

Located in the folder are many files. Do not move these files! Then, the software will not work.

When clicking the SEO ProRank icon, the database file will be created. Do not remove or rename this file! Then all your saved data will be lost!

Manage your ProRank Score

In this window, you will manage your data. You will see the ProRank Score as well as each Scan.

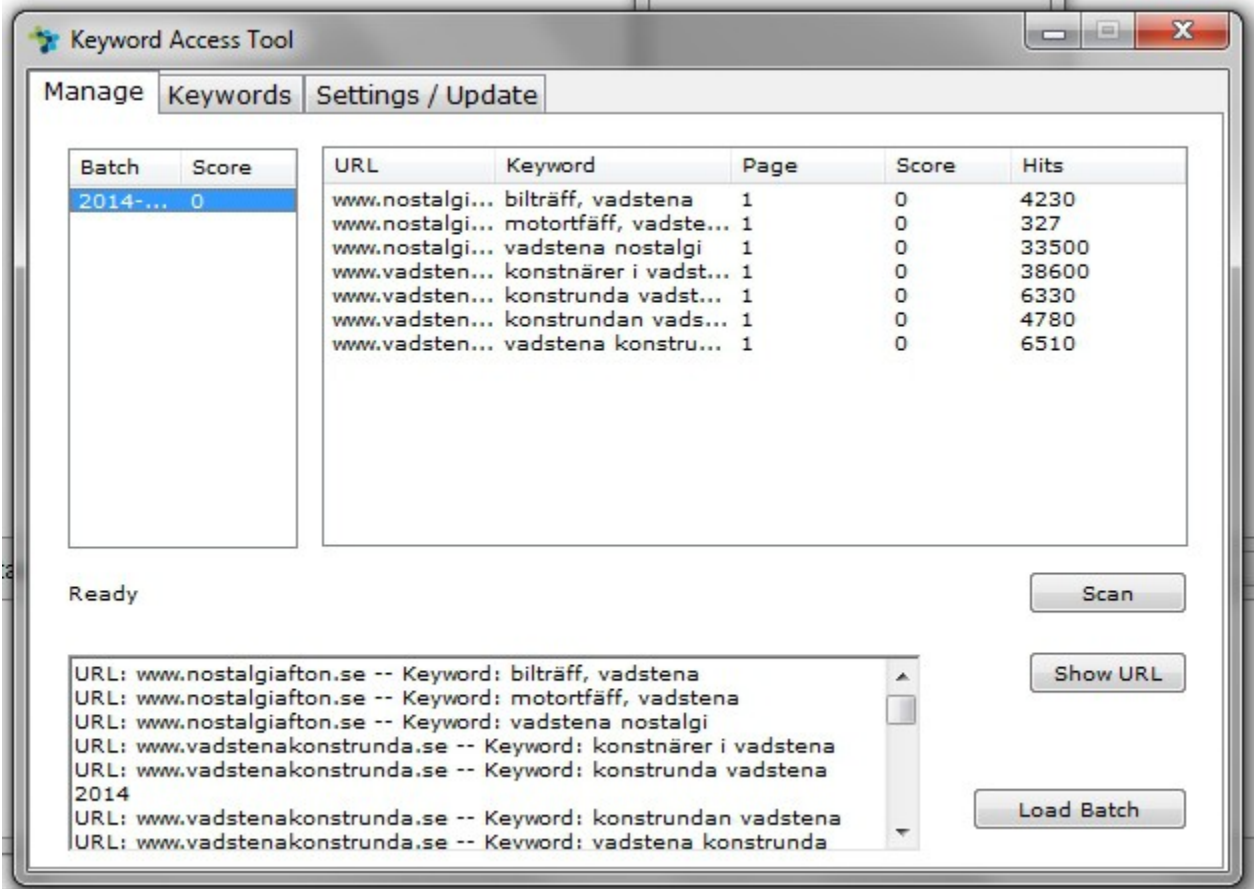

Example, view of SEO ProRank

After making a scan of your selected domains and keywords you can see the result in a clear view.

Each time you Scan your URL 's / Keywords the result will be saved in a Batch. Next to the Batch are the total Scores for the selected Batch.

The right field speak for itself. The URL's, the Keywords, the Page on Google, the Score for each Keyword and the Total Hits represented on Google.

When pressing a Keyword you can "Show URL", go to this page in Google, the SERP. (Search Enginge Result Page)

The screenshot shows the 'Keyword Access Tool' window. It has three tabs: 'Manage', 'Keywords', and 'Settings / Update'. The 'Keywords' tab is active. On the left, there is a table with two columns: 'Batch' and 'Score'. The first row is '2014-...' with a score of '0'. The main area contains a table with the following data:

URL	Keyword	Page	Score	Hits
www.nostalgia...	bilträff, vadstena	1	0	4230
www.nostalgia...	motortfäff, vadste...	1	0	327
www.nostalgia...	vadstena nostalgi	1	0	33500
www.vadsten...	konstnärer i vadst...	1	0	38600
www.vadsten...	konstrunda vadst...	1	0	6330
www.vadsten...	konstrundan vads...	1	0	4780
www.vadsten...	vadstena konstru...	1	0	6510

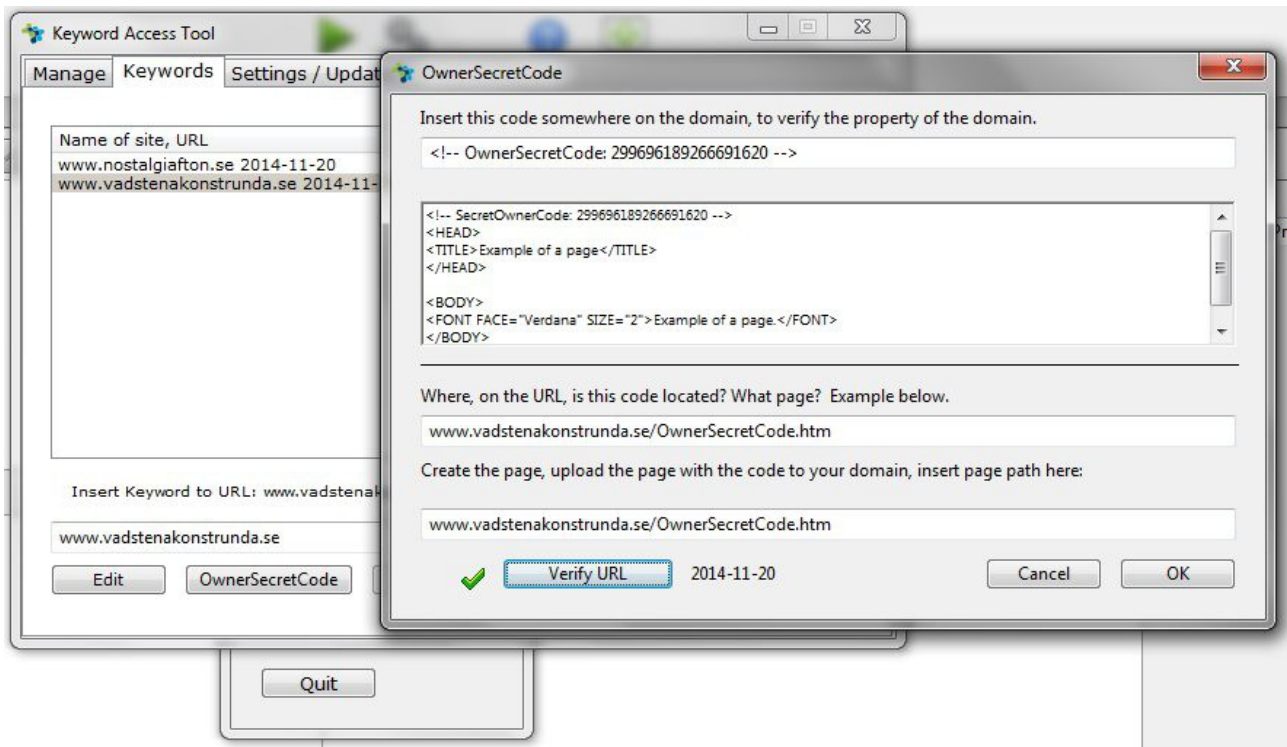

Below the table, the status is 'Ready'. On the right, there are three buttons: 'Scan', 'Show URL', and 'Load Batch'. At the bottom, there is a list of URLs and keywords:

- URL: www.nostalgiafton.se -- Keyword: bilträff, vadstena
- URL: www.nostalgiafton.se -- Keyword: motortfäff, vadstena
- URL: www.nostalgiafton.se -- Keyword: vadstena nostalgi
- URL: www.vadstenakonstrunda.se -- Keyword: konstnärer i vadstena
- URL: www.vadstenakonstrunda.se -- Keyword: konstrunda vadstena
- 2014
- URL: www.vadstenakonstrunda.se -- Keyword: konstrundan vadstena
- URL: www.vadstenakonstrunda.se -- Keyword: vadstena konstrunda

Verify your domain

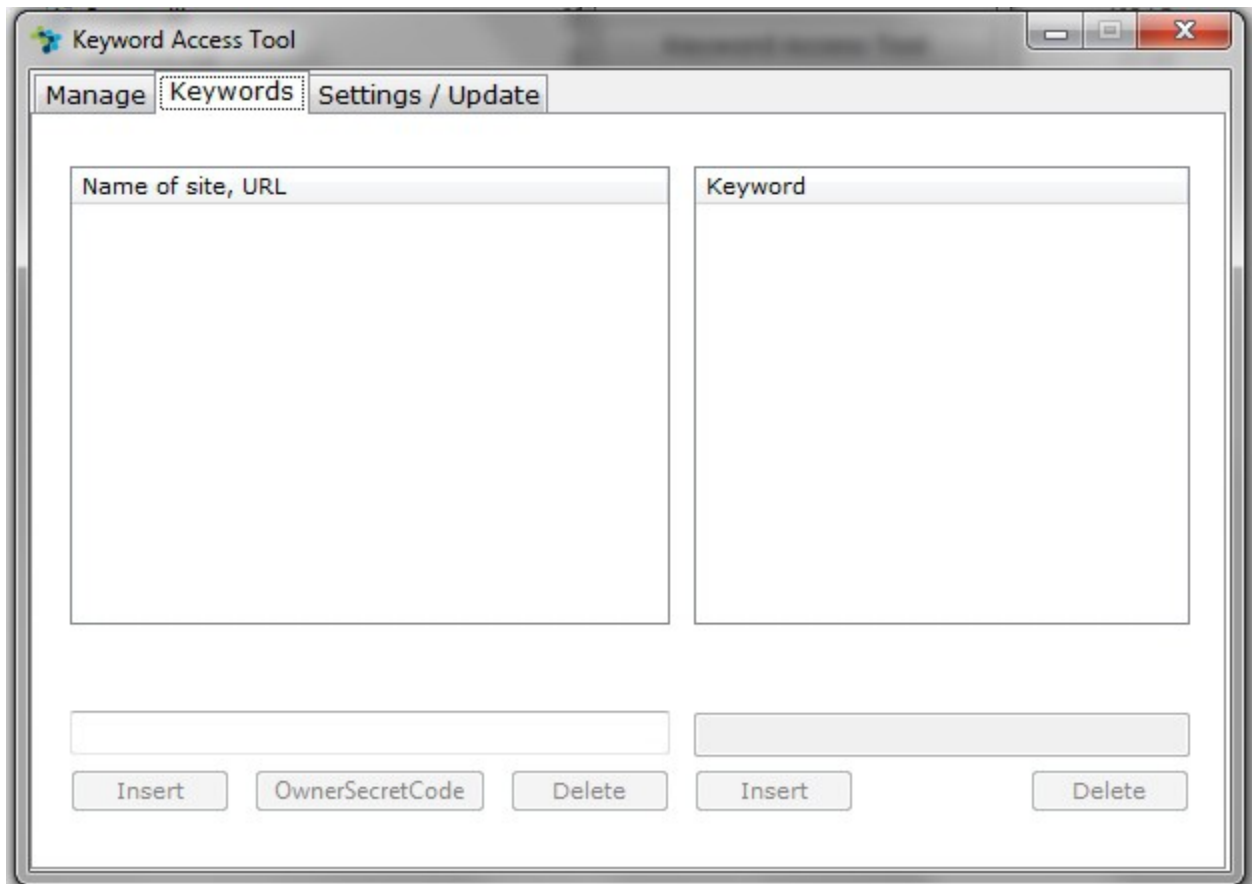

You may enter any URL and any keyword as you wish. To verify your own domains you must verify your domain. To do this, use the instructions on the screen, to use the personal code in any file and enter the path to this file.

Your ProRank Score will count for the domains you manage.

Manage your keywords

In this window, you will add your sites and, when that's done, you will add unlimited amount of keywords to each domain.

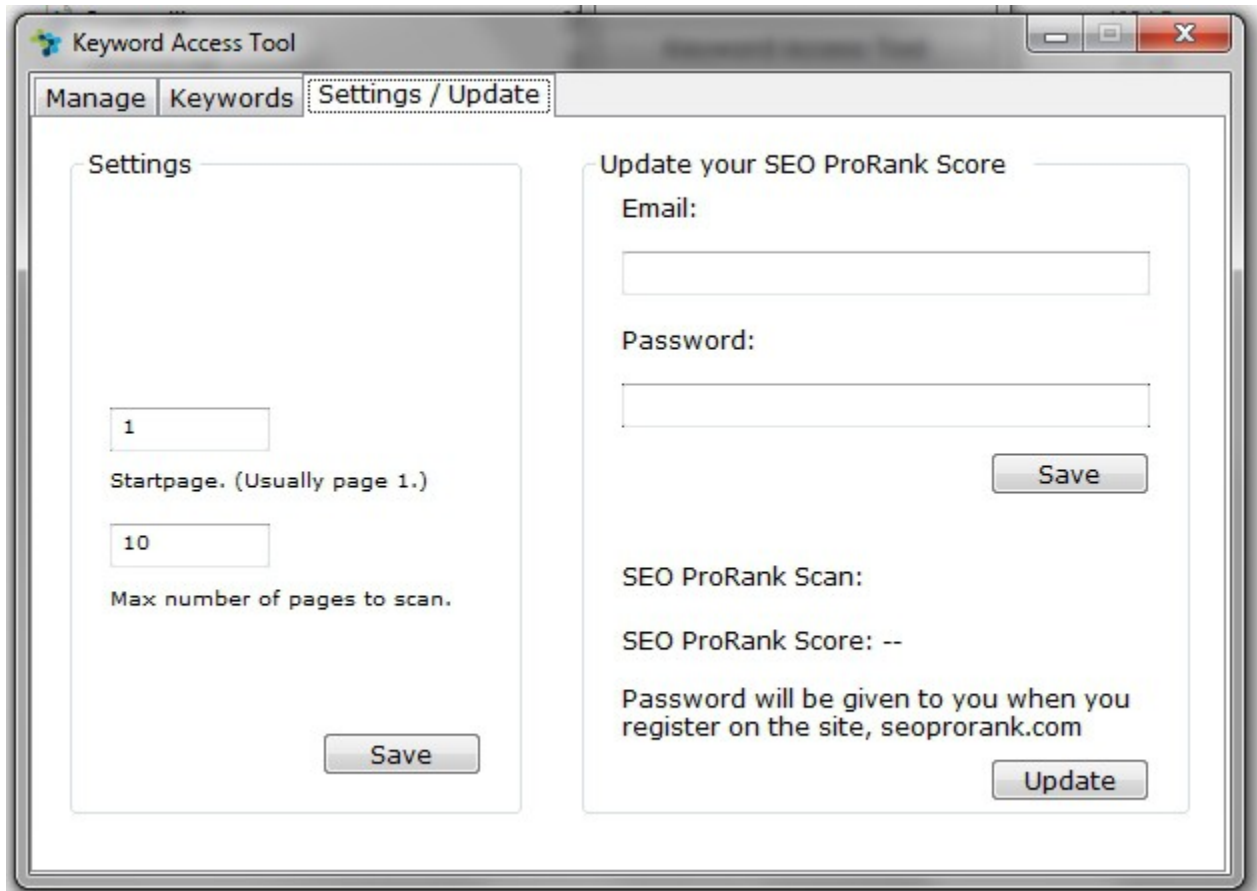

The screenshot shows a window titled "Keyword Access Tool" with three tabs: "Manage", "Keywords", and "Settings / Update". The "Keywords" tab is active. The interface is divided into two main columns. The left column has a header "Name of site, URL" and a large empty text area. The right column has a header "Keyword" and a large empty text area. Below these columns are two horizontal input fields. Under the first input field are three buttons: "Insert", "OwnerSecretCode", and "Delete". Under the second input field are two buttons: "Insert" and "Delete".

Update your ProRank Score

When you are done checking your score, then you may upload your score to the public web page. You need to register with the web site to use your e-mail and the password. The registration is free and you may choose the password yourself or use the one given to you.

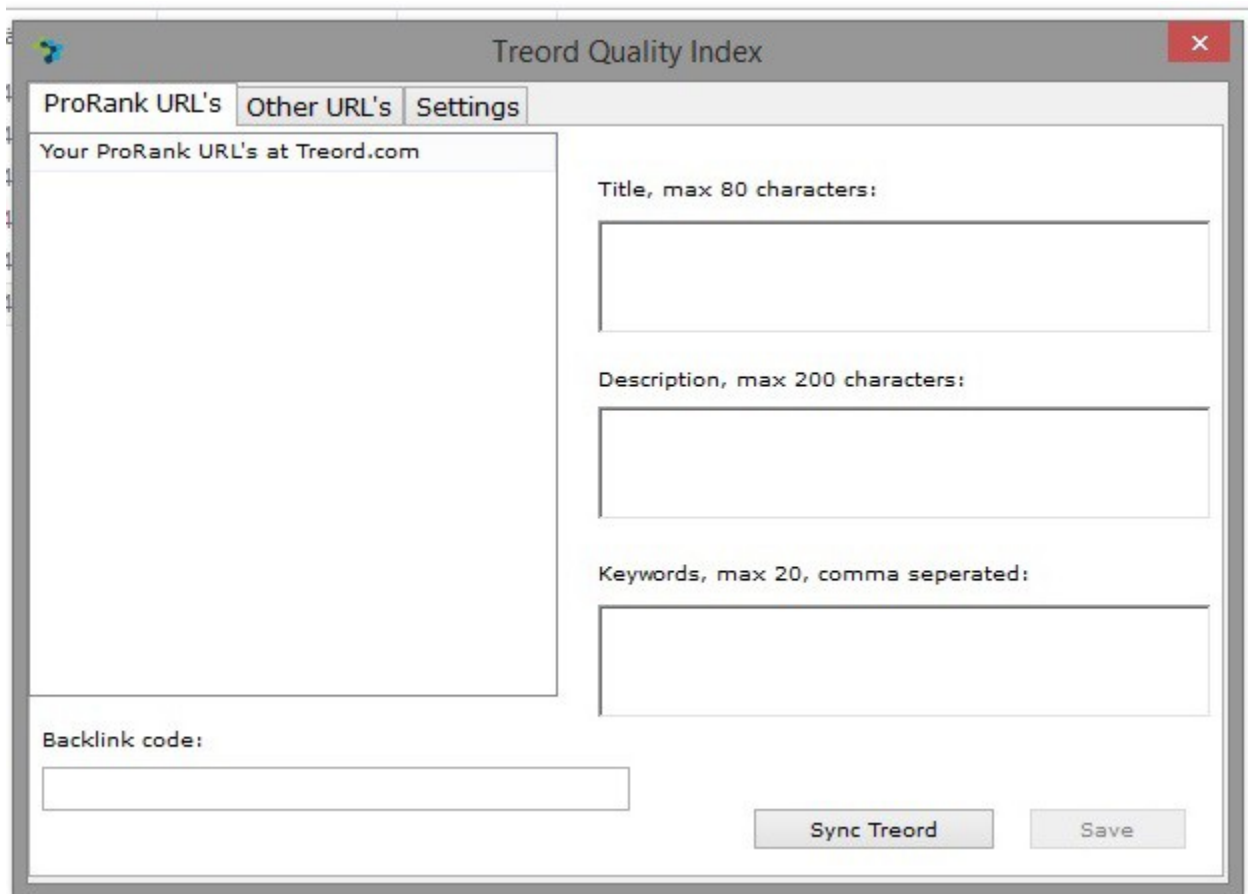

You can only update your ProRank Score to the website once a day.

The screenshot shows a web application window titled "Keyword Access Tool". The interface has three tabs: "Manage", "Keywords", and "Settings / Update", with the last one being active. The "Settings" section on the left contains two input fields: one with the value "1" labeled "Startpage. (Usually page 1.)" and another with the value "10" labeled "Max number of pages to scan.". A "Save" button is located at the bottom of this section. The "Update your SEO ProRank Score" section on the right contains two input fields for "Email:" and "Password:", followed by a "Save" button. Below these fields, it displays "SEO ProRank Scan:" and "SEO ProRank Score: --". A note states "Password will be given to you when you register on the site, seoprorank.com" and an "Update" button is at the bottom right.

Treord Quality Index

As a subscribing user, you may be part of and access Treord Quality Index. You will manage the index yourself and it will always be accurate.

The image shows a web browser window titled "Treord Quality Index". The window has three tabs: "ProRank URL's", "Other URL's", and "Settings". The "Settings" tab is active. The main content area is divided into two columns. The left column has a header "Your ProRank URL's at Treord.com" and a large empty text area. The right column contains three text input fields: "Title, max 80 characters:", "Description, max 200 characters:", and "Keywords, max 20, comma seperated:". Below these fields is a "Backlink code:" label and a text input field. At the bottom right of the window are two buttons: "Sync Treord" and "Save".

Treord Quality Index

The screenshot shows a window titled "Treord Quality Index" with a close button in the top right corner. The window has three tabs: "ProRank URL's", "Other URL's", and "Settings". The "Other URL's" tab is selected and displays the following text:

OTHER URL'S

In future versions och SEO ProRank you can add other sites to Treord Quality Index, such as blogs, your customers and other sites of your choice.

However, they all need to have an Owner Secret Code posted somewhere on the site.

Treord Quality Index

The screenshot shows a web application window titled "Treord Quality Index". It has three tabs: "ProRank URL's", "Other URL's", and "Settings", with "Settings" being the active tab. The main content area is titled "Treord Quality Index Settings" and contains the following text:

Treord Quality Index Settings

For subscribing members, there is an option to be part of the Treord Quality Index. Each user manage their donains themselves, to make sure all is valid.

There is also an opportunity to get scores from these URL's.

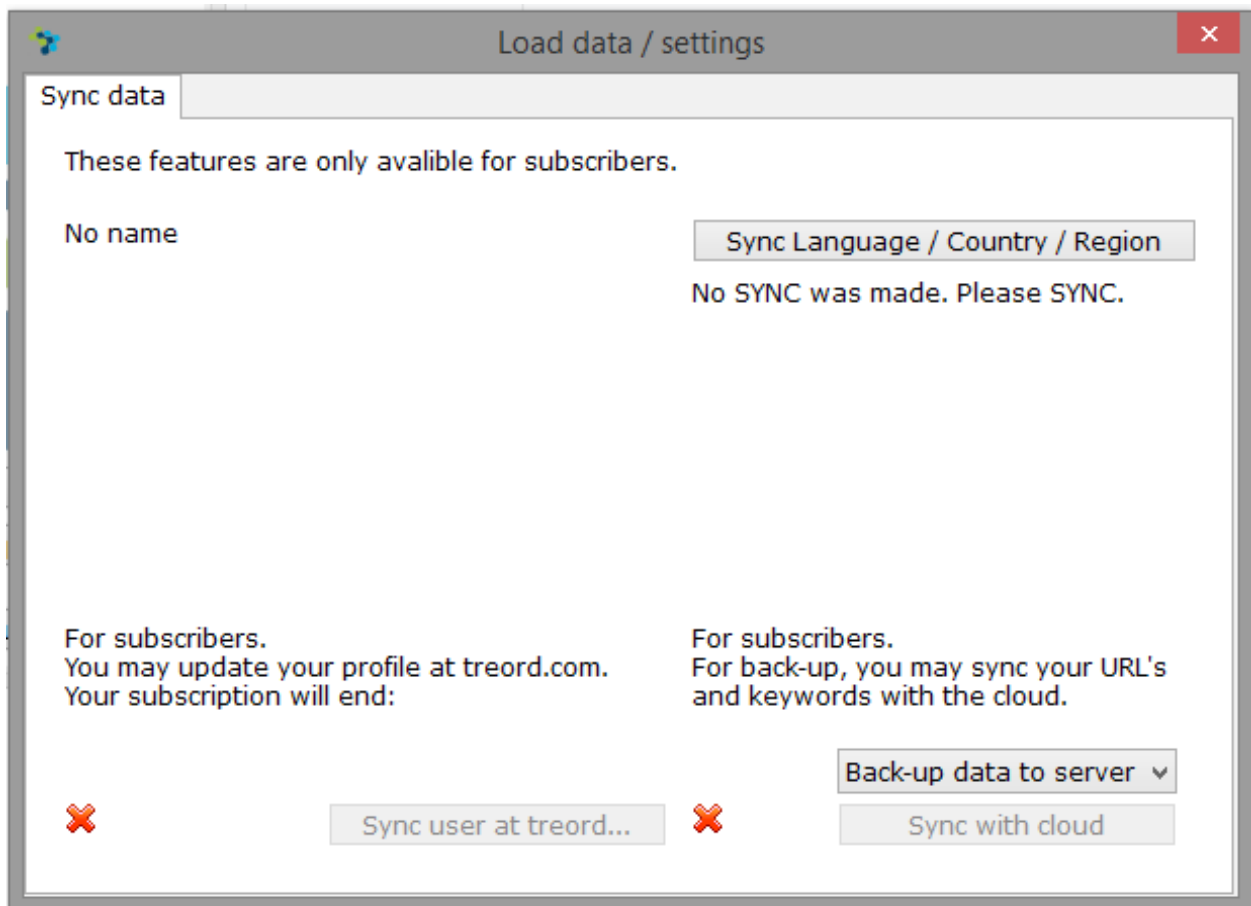

Below this text is a section titled "User Settings" which contains the following information:

- SEO ProRank ID: 000
- Name: No name
- E-mail: No email
- Company:
- URL:
- Subscription start: No date
- Subscription end: No date
- Team ProRank: NO

Sync Data

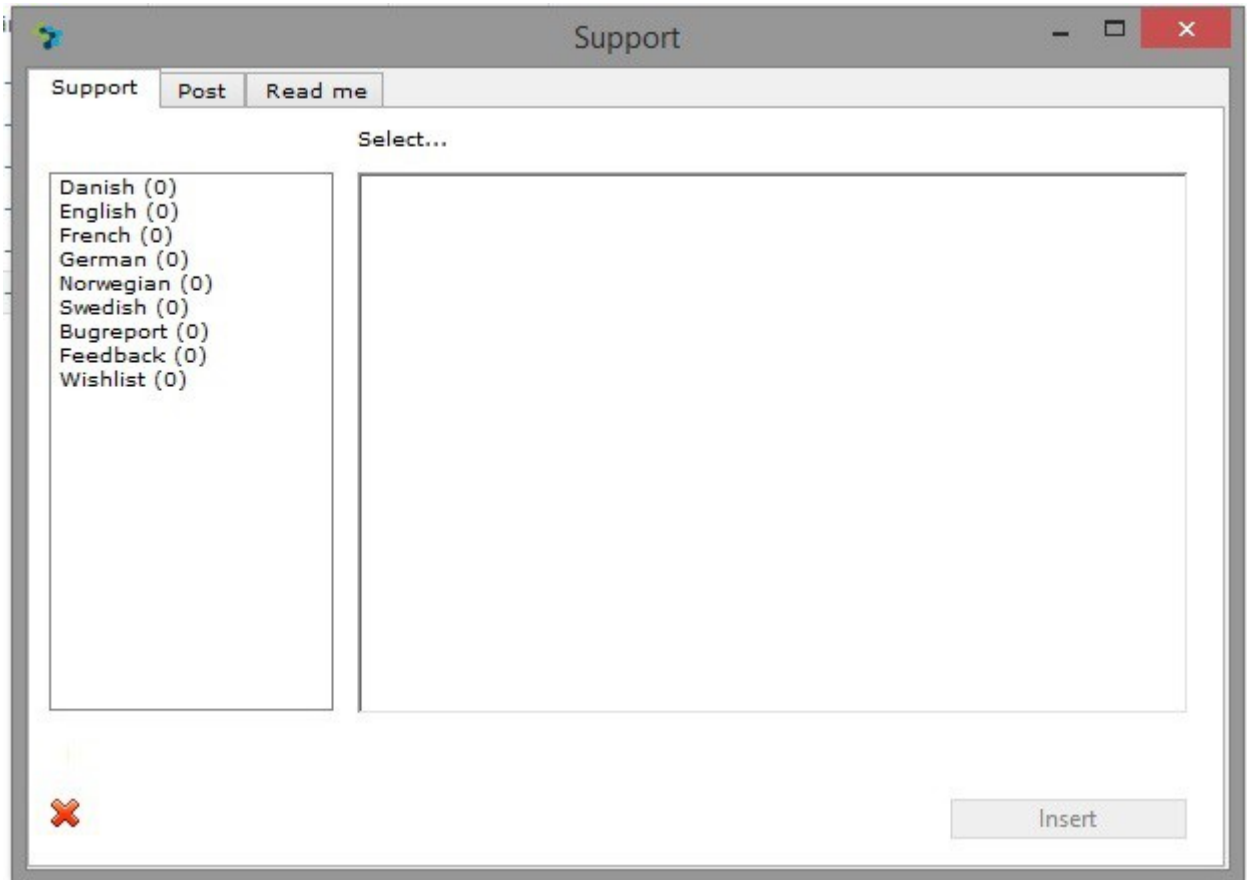

In this window users may sync data from the main web source, as data may vary.

Back-up your URL's and Keywords to the cloud.

Support

All can read, registered users may post.

Guarantee and Privacy

We do not guarantee anything. You use this software on your own risk.

There is no virus or any evil code in this software. The software will not harm your computer or your life.

We do not sell, trade or share any data to third party.
